The Chesapeake Bonus by Tresidio Homes is perfect for entertaining with its open kitchen to living area. A stunning ceiling tray takes the luxuriousness to a whole new level in the great room with optional upgrades to go even further with a cathedral ceiling. The owner's suite features access through the closet to laundry room, while still remaining a secluded retreat. A bonus floor includes a large room, bathroom and storage, adding almost 500 more square feet than the traditional Chesapeake, giving you and your family even more room to spread out and get comfortable.
