 3,062 Sq. Ft.

 5 Bedrooms

 3.5 Bathrooms

 3 Car Garage

The Riviera Bonus Bedroom is designed to give you more of what you need without losing the ease of a main level living layout. The core of the home centers around an open kitchen, dining, and great room that creates a natural space for both daily routines and gathering. Most of the bedrooms are positioned on the main level for convenience, with an additional bedroom and bonus space upstairs that adds flexibility for guests, work, or a separate retreat.

The layout balances shared spaces with privacy, with a primary suite set apart to feel quiet and comfortable while the rest of the home stays connected. The added bonus room and extra bedroom create options without complicating how the home flows, giving you space that adapts as life changes. Movement throughout feels simple and intentional, with each area placed to support how the home is actually used. The Riviera Bonus Bedroom reflects the Tresidio approach to building homes that are flexible, functional, and designed to live well every day.
